

CREATIVE iMEDIA

KS4

YR10

Curriculum Overview

The Cambridge Nationals Creative iMedia course focuses on developing skills in game design and graphic design. Students will engage in practical coursework, creating digital media products such as games, graphics and promotional materials. They will learn to apply creative techniques, project management, and technical skills in real-world scenarios.

Course Content and Skill Development

- Core exam theory part I
- R084 Coursework, Creating Digital Graphics
- R099 Creating Digital Games

When and how assessment of learning will happen

Assessment in Creative iMedia is a blend of practical and theoretical methods. Students are assessed through topic-based tests, coursework submissions, and practical project work. They will demonstrate their understanding of media concepts, apply creative skills in design tasks, and meet set criteria for each assignment to earn their qualification.

The final exams/ assessment:

- 2 coursework submissions
- 1 exam
