

GEOGRAPHY

KS4 (Edexcel GCSE Geography B)

Curriculum Overview

Year 10 and 11 Geographers at Christ the King College study the Edexcel B GCSE Geography specification. The course builds upon KS3 learning to develop students' knowledge and understanding of place, processes and interactions at a variety of scales, from local fieldwork investigations, to UK and global issues. Students are encouraged to make geographical decisions by applying their knowledge, understanding and integrated geographical skills to real-life 21st century people and environmental issues.
