

# HEALTH & SOCIAL CARE

KS4 ( BTEC Level 2 Health and Social care)

**YR10**

## Curriculum Overview

In the first year of the courses students will dive into human development across all life stages. You'll explore physical, intellectual, emotional, and social changes from birth to later adulthood. This course also emphasises the development of core care values like respect, compassion, and dignity, preparing you to provide sensitive and supportive care to individuals of all ages.

## Course Content & Skill Development

### The final exams/ assessment:

Students are assessed both via internal assessments and external assessments (exams). The Internal assessments are called PSAs (Pearson set assignments), these are coursework/assignment style tasks completed in lesson time. In Year 10, students will complete Component 1 PSA in the January-May assessment window. In January, Pearson will release 5 tasks based around a case study that students will need to complete in exam conditions during lesson times, they will be guided on how long to spend on each task. These assessments will then be marked by their class teacher and feedback will be provided. This work is then externally moderated and students will receive their mark out of 60 in August.

ISBN: 9781789089097

### Home Learning Expectations

We encourage health and social care students to engage with current affairs regarding Health and Social care topics, this could be watching the news and being update on recent news about the NHS or watching a programme on the workings of a Hospital such as "24 hours in A&E". When students are completing their PSA, although all work must be completed in lesson time we also encourage students to prepare their notes at home to check they have all the information they need.
